STRONG FOUNDATION

As it says in Luke 6:48, a home must be built with a strong foundation so that it may stand firm through any adversities. Dream

Home Builders' owners J.T. and Maria Haun, both Killeen natives, believe this is achieved not just by the rock used to build the home but through a personal connection they develop with each of their home owners. Through this process they not only build a dream home with quality craftsmanship, but also blessed with a special relationship with each home owner. Building homes started off as a hobby for J.T. and Maria, but after seeing the joy it brought their clients, it quickly became a passion. Dream Home builders specializes in designing residential and commercial projects. They have designed and built a variety of residential homes and also have experience in building commercial construction projects.
